

# A GEM AMONG GIANTS

Measure the Pleasure  
Life is a Gift

Measure the Pain!  
Life is a Punishment

11 Esoteric Laws of Inextricability

11 Absolute Truths

ONLY GOD KNOWS WHY? AND GOD KNOWS BEST!

THE END OF FEEL GOOD PSYCHOBABBLE THAT NUMBS THE PAIN AND KEEP THEM SANE!

Is Life a Gift or a Punishment?

## GOD OF WHAT? Is Life a Gift or a Punishment?

### Preface

Disraeli said, "Philosophy becomes poetry and science imagination, in the enthusiasm of genius." This book is a confluence of philosophic genius and poetic genius. It is philosophy condensed into philosophical poetry.

Every noteworthy topic in philosophy is thematically interwoven into a set of unified, seamless, universal, and absolute truths, entitled, **11 Esoteric Laws of Inextricability**, and every single truth, is a timeless truth for all eons.

Finding one philosophical truth is outstanding, but locating, compiling, and explaining 11 philosophical truths is beyond belief.

It has taken generations for a **Philosopher Queen** to be born of this caliber, who can reduce our reality into single words, that can communicate complex philosophical concepts, that both students and scholars, will immediately find comprehensible, not to mention endlessly thought provoking:

(1) Peacelessness (2) Homelessness (3) Lifelessness (4) Humanbeinglessness (5) Morality/lessness (6) Choicelessness (7) Lovelessness (8) Mindlessness (9) Happy/lessness (10) Mercy/lessness (11) Creation/lessness. The single thread intertwining these terms, the philosophical concepts, is the poetic genius at work.

Confucius said to his pupil, "Do you think I have come to know many things by studying them? No. I penetrate them by their underlying unity."

Depth Perception: The **Philosopher Queen** in our midst, has revealed to us a perception of reality that is not relative, and that few people have ever laid their eyes, minds, and hearts upon, and has compiled her brilliant vision into one compact book.

Leo Tolstoy said, "There is no genius where there is not simplicity."

In concurrence, **Albert Einstein** said, "When the solution is simple, God is answering." This book will do for philosophy what Einstein did for physics. The "**11 Absolute Truths**" will advance our understanding of our world, and give us a new paradigm of critical knowledge that we can no longer continue to live without. Effulgent, we now see the world we live in from new dimensions. "**11 Absolute Truths**" are culled from an intuitive gift, with no high-tech microscopic or telescopic tools at her disposal.

Throughout history, women have been praised for their deft innate instincts, commonly referred to as, "women's intuition." Finally, we bear witness to the tremendous power unleashed by one woman's intuition that is embodied by this magnificent and monumental achievement.

**Robert Graves** said, "Intuition is the supra-logic that cuts out all the routine processes of thought and leaps straight from the problem to the answer." This philosophy book is the official vademecum to attain an astute awareness of reality: a gem among giants. — Dr. Chachma
